**Ujejskiego 4/3**  
**51-141 Wrocław**

has organised and managed the transfer , training of staff and implementation of SOBEK flood modelling software in Institute of Meteorology and Water Management, Wrocław Office.

The assignment was executed jointly with Delft Hydraulics staff led by dr Bart Parmet from RIZA Institute, Lelystad , The Netherlands in the framework of Polish – Dutch Institutional Cooperation Programme in the Odra River Basin from April 1998 till November 1999.

The final result of the task is implementation of one-dimension flow model SOBEK on the section of Odra River from Malczyce to Nowa Sól.

The task has been performed in professional way according to approved terms and standards.
